settlers for the fertile lands under the dame.

The Perox Valley Water Lisers' association, to which the land owners belong has und all the lands for sale under the project. Usted with it and it, in turn, has listed the lands with the agents of the association in Kansas City. The prices if which the lands are to be add and the terms of payment have been agreed upon and the prices and terms are being adhered to by the agency which is handling the property. The result is that more lands are being sold and more settlers are coming to the valley this year than ever before since the project was opened.

Every hospital in the city was called to send ambalances for the burned men while a long line of private cars and taxicabs lined Overland street in front of the station, all donating their services toward the removal of the sufferest. The first 18 men to be taken out were jushed to the county hospital, while 15 were sent to Hotel Dieu. The remaining three, J. Provencio, Ocario Soto and W. R.
